

Sustainability Coursework

The following courses contain sustainability content and are officially listed in one of the Sustainability clusters [C], minor [M], or the Environmental Studies major [ES]. New or occasional courses may be appropriate for inclusion in one of those programs on a case-by-case basis.

Courses that do not have anything indicated in the “included in” column are cross-listed in Sustainability but not part of any of the official programs.

Cross-listed courses are listed by their parent department.

Social Science Courses

Course	Title	Instructor	Last taught	Included in...
