Consulting:

Consultant for Kern Family Foundation-funded projects, to develop character education frameworks and prepare educational leaders for character education (2019–2024). Most notably, in 2020 and 2021, I led the development of a character education framework tailored to the regulatory context of the State of Alabama, developed associated guidance for school leaders, and served as a content validation expert on the development of an Intermediate Concepts Measure of ethical judgment for school leaders. The framework is available here:

Curren, R., Walker, D. I., Mendiola, B., and Bynum, Y. (2021). A Framework for Character Education in Alabama Schools, University of Alabama, [169656-framework_book_e-copy.pdf \(ua.edu\)](#).

Served as a Content Validation Expert for the development of an instrument to measure autonomous motivation for breastfeeding, for research by Kelsie Barta in the College of Nursing at Texas Woman's University (2022).

Consultant to the Vice-Rector of the International University of La Rioja, in Madrid, on the design of a program in Character Education (2018). Enrollments in the program grew to 300 a year by 2022.

Consultant on a project to develop constructed response exercises and the methods for scoring them in secondary school science assessment, led by R. Darrell Bock (University of Chicago), in collaboration with the Golden State Examinations Program of the California Assessment. My responsibilities included the elaboration of a conception of the nature and elements of scientific thinking in biology, defining on that basis a set of rating dimensions and categories, and participating in the selection and development of the writing prompts, rating scales, and instructions for graders used in state-wide field trials. (1992–1997)

Consultant to the Department of Emergency Medicine, URM, on a study of the disparity between knowledge of emergency procedures measurable by written tests and observed ability to carry out the procedures (1997).

Consultant to the Department of Emergency Medicine, University of Rochester Medical Center, on developing a test of critical thinking and its use in assessing a unit of evidence-based medical instruction (1995–96).

Consultant for the CDC's (Centers for Disease Control and Prevention, Atlanta) development of new versions of the Vaccine Information Sheets for DTP, MMR, and Polio used by health care providers in the USA (1993-94).
